

PAINTABLE PARQUET SKIRTING

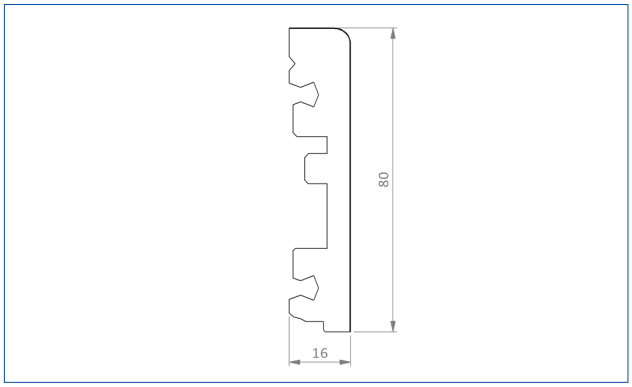

Technical data sheet
English

QUICK·STEP®
FLOOR DESIGNERS

General information

Paintable parquet skirting that can be left white or grab a can and paint your skirtings in a colour that suits your style. Do your skirtings need to withstand damp conditions? Then make sure to choose our waterproof skirtings instead.

Contents	Composition	Colour
Parquet skirting	MDF with multifunctional surface	White ≈ RAL 9003

Order code	Dimensions
QSWPPSKRPAINT	2400 x 16 x 80 mm

Applicable for:

All Quick-Step Parquet floors.

The floor must be able to expand and contract on all sides. This is why an expansion gap must be provided on all sides of the floor, around pipes, thresholds and under door frames. The exact expansion gap size depends on the floor type. Consult the installation instructions of your Quick-Step floor to know the required size of the expansion gap. To finish off this gap, we offer a wide range of skirting and profiles.

Features

Quick-Step accessories are specifically developed for Quick-Step floors.

Multi-purpose surface

The surface can be left white or painted.

Same shape as colour matched skirtings

Choose or combine between a colour-matched skirting or the white and paintable skirting: they have the exact same shape! Use the same accessories to install both skirtings (track or glue).

Easy installation with Quick-Step One4All glue

Simply glue the skirting to the wall or use the track (NETRACK).

PEFC
PEFC/07-32-37

Installation

The skirting can be installed in the following way:

1. If you choose to paint the skirting, it is best to sand and prime the skirting to ensure the best adhesion. Always verify if the paint bonds well. Preferably, use a water-based lacquer paint.

2. Simply glue the skirting to the wall with the Quick-Step One4All glue or use the track (NETRACK). Secure the track to the wall and click the skirtings in place.

3. You can paint the skirting in the colour of your choice or you can leave it as a white skirting.
