

PARQUET SKIRTING

Technical data sheet
English

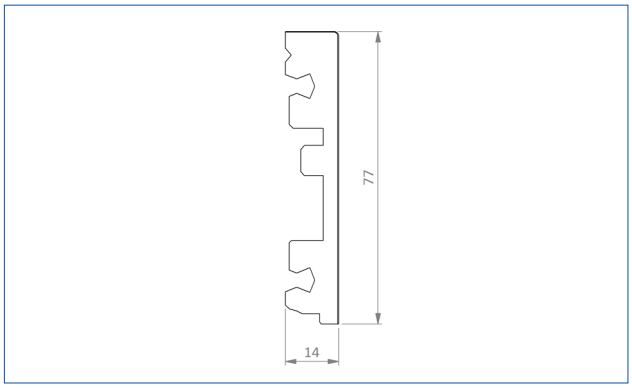

QUICK·STEP®
FLOOR DESIGNERS

General information

High, straight skirting that perfectly matches the colour of your floor. It has handy grooves built into the back to accommodate cables. For a swift installation, just use the Quick-Step One4All Glue or Track. To achieve a watertight finish, we suggest you combine the parquet skirting with the Foamstrip (NEFOAMSTRIP20), Hydrokit (QSKITTRANSP) and Hydrostrip (NEHSTRIPSCOTPSK15). It's also available in a white, paintable version (QSPSKRPAINT).

Contents	Composition	Colour
Parquet skirting (6 pieces per pack)	MDF with laminate foil	Colour matched

Order code	Dimensions
QSPSKR(-)	2400 x 14 x 77 mm

Applicable for:

All Quick-Step laminate floors.

The floor must be able to expand and contract on all sides. This is why an expansion gap must be provided on all sides of the floor, around pipes, thresholds and under door frames. The exact expansion gap size depends on the floor type. Consult the installation instructions of your Quick-Step floor to know the required size of the expansion gap. To finish off this gap, we offer a wide range of skirting and profiles.

Features

Quick-Step accessories are specifically developed for Quick-Step floors.

Perfectly matching colour

Quick-Step skirtings are available in a design that matches your floor perfectly.

Excellent wear- and scratch resistant surface

The durable laminate top layer makes the skirtings protected against everyday wear and tear.

High-quality MDF base

Protected against moisture

To achieve a watertight finish, we suggest to combine the skirting with the Foamstrip (NEFOAMSTRIP20), Hydrokit (QSKITTRANSP) and Hydrostrip (NEHSTRIPSCOTPSK15).

Quick-Step warranty

Quick-Step skirtings are high quality. They come with the same warranty as your Quick-Step floor.

Installation

Installation with the Quick-Step Track

You can simply secure the track to the wall using screws or the One4All glue. Then you just click the skirtings into place. You can clip off the skirtings again at any time. This track is available separately (NETRACK).

Make sure you use a sharp saw blade when mitering your skirtings.

Installation with Quick-Step One4All Glue

The skirting can also be installed with the multifunctional One4All Glue (QSGLUE290), that was specifically designed for installation of all Quick-Step accessories.

Make sure you use a sharp saw blade when mitering your skirtings.
